왜 그럴까?

에러 메시지가 자주 뜨길래 뭔가 자세히 봤더니 크롬 확장 프로그램 관련 에러로 보였다

Error handling response: TypeError: Cannot read property 'always' of undefined at

내가 설치한 **크롬 확장 프로그램**에서 **Drag-Free** 때문에 발생하는 오류로 **Drag-Free**를 삭제  
하거나 사용안함으로 설정을 변경해보았다

다시 실행해보니 위의 에러 메시지가 안보이는 걸 확인할 수 있다

I ran into this problem in Drupal 9 website where a user was unable to download a javascript file. The following error was shown in the console

Error with Permission-policy header: origin trial controlled feature not enabled 'interest cohort'

net: ERR\_ABORTED 502

It looks like interest cohort is not in the list of supported origin trial features in Edge

<https://docs.microsoft.com/it-it/microsoft-edge/progressive-web-apps-chr...>

Fix for the error for those running into this error

You can disable this request header by using the following setting in settings.php

```
$settings['block_interest_cohort'] = FALSE;
```

Should the disabling of 'interest cohort' remain in core?

FLoC is dead

Should this code around disabling 'interest cohort' #3209628: Add Permissions-Policy header to block Google FLoC remain in core?
